Nordic Nuclear Collaboration: Adapting To New Realities

Joint NKS-R and NKS-B Seminar, Piperska Muren, Stockholm, 21-22 May 2025 (1st announcement)

NKS proudly announces a new joint NKS-R and NKS-B seminar, which will shed new light on the status in Nordic nuclear safety. The newest NKS results will be presented and discussed in the context of future needs. There will also be topical sessions to discuss hot topics of the time in Nordic context, including preparedness needs in view of the current geopolitical situation, and safety perspectives of new generation reactors, including SMR's. There will as usual be talks by invited top expert speakers from international organizations. More detailed information, including possibilities for registration, will follow over the next months. For now, even though it is still early days, please remember to mark the days in your calendar.
